

# Divisional and Medical Director, Critical Care

Lady Cilento Children's Hospital  
Children's Health Queensland

In this role you will drive and influence the direction of paediatric acute care across Queensland as you develop services to attain a level of excellence with international recognition.

## Key highlights

- ✓ Contemporary clinical leadership role with incredible opportunity to innovate
- ✓ Dynamic, forward-thinking, and family-centred organisation
- ✓ World-class facilities and clinical trials programs
- ✓ Excellent remuneration package relocation package

The Divisional and Medical Director, Critical Care (DMDCC) will provide contemporary clinical leadership and management to a highly collaborative and well-resourced multi-disciplinary team of health professionals based at the Lady Cilento Children's Hospital (LCCH), the flagship facility of Children's Health Queensland (CHQ), a recognised leader in paediatric healthcare, education, and research.

The division's range of paediatric subspecialties includes critical care, emergency medicine, intensive care, anaesthetics, cardiac surgery, cardiology and medical imaging (radiology). Each subspecialty has established clinical leaders reporting to the DMDCC.

You will be responsible for the annual operating budget and be accountable for performance against a negotiated annual service agreement with agreed activity, budget, and quality measures. The DMDCC will manage clinical service delivery and lead a redesign of clinical services in the Division.

Clinical governance, leading service development, implementing contemporary practices and quality improvement initiatives will be key responsibilities of this role, alongside providing strategic and operational direction aligned with the CHQ strategic priorities.

The structure of the position is negotiable with a minimum 0.5 FTE dedicated to divisional leadership and an additional clinical component available up to 0.5 FTE.

## Keys to success

You will demonstrate an outstanding clinical record in a discipline relevant to the division and be highly respected as an opinion leader amongst your professional peers. You will have proven professional leadership skills in a tertiary paediatric setting.

You will have knowledge of contemporary human resources management issues across a broad spectrum and demonstrated ability to provide strategic direction, lead innovation, and redesign clinical services. You will bring your existing skills and knowledge to this influential divisional clinical leadership position.

You must hold qualifications and current registration with AHPRA as a specialist medical practitioner within a discipline relevant to the division.
